Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (NA) Not available. (X) Not applicable.

* Represents expenditures during the year for both new and used plant and equipment.

Represents gross shipments of coal indicated by the industry name less coal transferred to other establishments for preparation.

Figures for the cost of coal received for preparation are included with those for the cost of supplies, purchases for resale, and purchased energy.

Figures for coal produced by establishments classified in other industries are included with those for coal produced by establishments classified in the coal industries.

Figures for primary services performed in other mineral industries are included with those for primary services performed in the coal mining services industries.

The cost of purchases for resale is included with the cost of coal received for preparation.
